丝印玻璃格栅移门是戈诺尼的创新产品方案，设计灵感来源于日本的传统分区系统，丝印玻璃就是一种应用玻璃丝网印刷工艺，在玻璃表面进行装饰，通过绚丽的色彩，清楚地反映了图形美学和建筑功能品质。垂直铝格栅与水平丝印之间装饰线条形成十字架结构，重新解释一种原始而迷人的美学，幸好有丝印玻璃和铝格栅的各种组合，来描述空间装饰美感。

Screen printed glass grating sliding door is an innovative product solution of GAINER, the design inspiration comes from the traditional partition system of Japan, screen printed glass is a kind of glass screen printing process, decorated on the glass surface, through the gorgeous color, clearly reflects the graphic aesthetics and architectural function quality. decorative lines between the vertical aluminum grating and the horizontal screen printing form a cross structure, which reinterprets a primitive and charming aesthetic. Fortunately, there are various combinations of screen printed glass and aluminum grating to describe the decorative beauty of the space.
